

IHistGroup

```
classDiagram
    class IHistGroup
    class HistGroupBase
    class HistGroupEvent
    HistGroupBase --|> IHistGroup
    HistGroupEvent --|> HistGroupBase
```

A UML class diagram illustrating inheritance. At the top is the interface **IHistGroup**. Below it is the class **HistGroupBase**, which inherits from **IHistGroup** as indicated by a solid line with an open arrowhead pointing to the interface. At the bottom is the class **HistGroupEvent**, which inherits from **HistGroupBase** as indicated by a solid line with an open arrowhead pointing to the base class. All three classes are enclosed in rectangular boxes with thick black borders.

HistGroupBase
